# Bedazzling Intelligence

Worlds Most Extravagant Smart Switch

# Switch to Smart

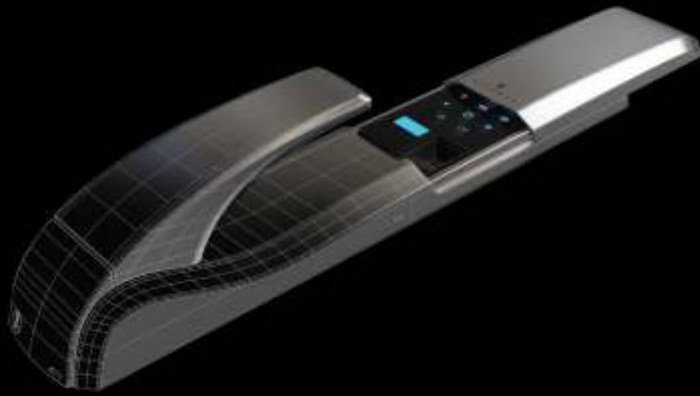

For years, technology has made offices and industries smarter and more efficient. Today it enhances our lifestyle as well. We at Skroman, create energy-saving, space automation solutions that simplify and transform everyday living. Our intelligent and innovative range of products are making life safe, convenient, and more elegant.

# Smartness at your Service

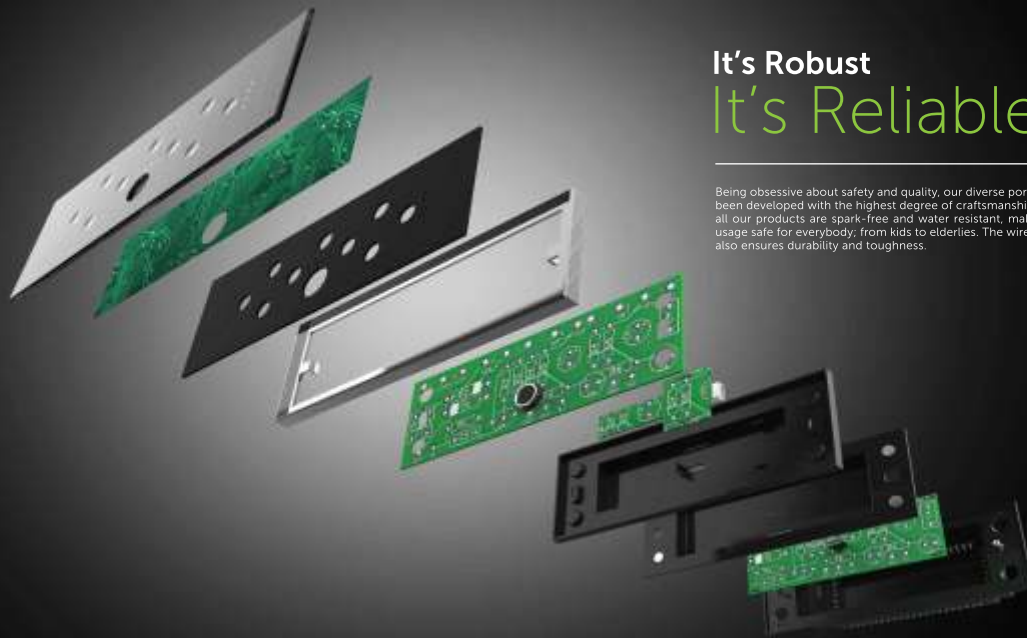

We believe technology should make life simpler, not complicate it. That is why, we offer a range of automation products that are easy to operate. From lights that change their colour through remote control to switches that can be located in pitch darkness to curtains that open at a scheduled time, our products make living and working more convenient and relaxed.

## Technology is in our DNA

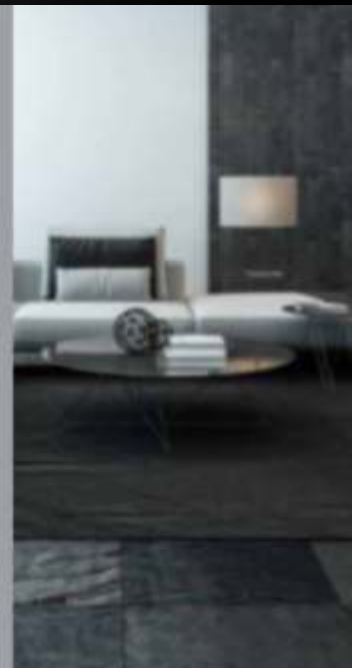

Behind every smart feature, every intelligent solution, lies our cutting-edge technology. Even in this dynamic world, our products are designed to take care of your lifestyle today and tomorrow.

## It's Robust It's Reliable

Being obsessive about safety and quality, our diverse portfolio has been developed with the highest degree of craftsmanship. In fact, all our products are spark-free and water resistant, making their usage safe for everybody; from kids to elderly. The wireless built also ensures durability and toughness.

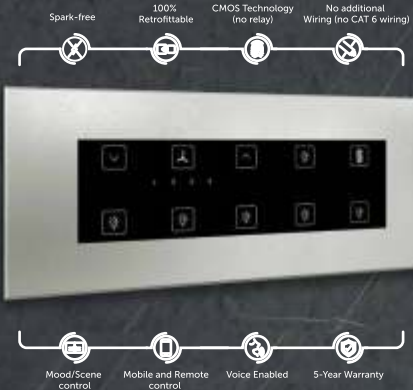

## Your home on your Fingertips

We believe that technology should be simple to understand and easy to implement. All our solutions are user-friendly and simple to use. Moreover, through our smart app you can not only schedule and monitor devices but also switch them on or off from anywhere. You can also manage it all through remote control, virtual assistants (Alexa, Echo, etc.), touch panels, and of course manually.

# Touch Switches

Our touch switches personify elegance and efficiency. Smooth to operate and robust when it comes to working, they are retrofittable, hence no rewiring is required. Moreover, the minimalistic design and innovative features, enhance the aesthetic appeal of your home. Available in over 5000 colours and finishes, these touch switches are also customisable.

# About Skroman

Skroman was conceptualised in 2010 to simplify everyday living. We wanted homes to get smarter where functions like safety, energy efficiency, scheduling, convenience could be managed by smart, space-saving automation solutions.

Using intensive research, and developing products based on the futuristic technology, we have designed products that can transform commercial properties across India. From mood lighting to scheduling your curtains to controlling devices from anywhere, our solutions have been carefully conceptualised to ensure that you can easily switch to a comfortable, smarter and luxurious lifestyle.
